

UFO POTPOURRI

no. 355

Compilation of several swiss-sightings from 1989 and 1990

- 2-23-89 : A man saw this strange rotating object (see table 1) in the heaven over Zurich .
The black body moved quickly and performed no noise at all .
- 3-26-89 : A pensioner from Motiers, Neuenburg was sitting in front of his television as suddenly his screen showed a malfunction and his razor was set in action without any external influence .
The witness looked through the window and saw in a distance of about a hundred meters a luminous flying object . One week later the same phenomenon happened again but this time without any EM-effects .
- 11-17-89 : Standing on her balkony in Basel at about 23:00 pm a consulting-room-assistant happened to notice eight flying spheres . The objects flew in a specific order and formation . (see table 2)
Suddenly one after the other they all disappeared at the same spott .
- 11-19-89 : On each of these dates orange-lights were ob -
11-20-89 served in Basel moving slowly and without any noise.
11-25-89 Very probabely it was a matter of party-balloons .
- 11-21-89 : A woman standing on her balkony remarks a big bright cross flying noiseless in the heaven over Zurich .
- 2-25-90 : On this day in Holziken, Aargau a landing-case occured . The witness , a 17 years old boy, was driving home with his motorcycle as he suddenly noticed on a farm-ground by the side of the street a very bright saucer-shaped object .
The boy seemed to be very credible . Even the traces of the landing could be found during the investigation .
- 2-90 : Two other cases from Luzern and Zug in the middle of this month revealed as newspaper-hoaxes .
- 3-23-90 : A flying disc was seen in Lugano .
- 3-24-90 : Also in Lugano another witness noticed some kind like a luminous "egg" .

'Like a Big Old Cigar'

UFO Over La Porte Area Is Reported by 4 Men

Four men reported seeing an unidentified flying object that looked "like a big old cigar" as it drifted over the La Porte area Sunday morning.

"It was so darn big, it looked like it could have been 10 feet in diameter and 150 feet long," said Roy Pentecost, 57, of 5718 Grace Lane, Houston. He said the object flew upright, or perpendicular to the ground.

"IT LOOKED like a big old cigar up there with tapered fins at the bottom," Pentecost said.

"It seemed like it was drifting along, kind of easy like," at about 15,000 feet, he said. He estimated the object's speed at 100 MPH.

The men sighted the object shortly before 9 AM as they were at the Anchor Boat Works at Morgan's Point. Pentecost said they had watched the object for about 20 minutes, with all of them viewing it through the 50-power binoculars.

"While it was going over, we all just stood there with our mouths open," said Pentecost, a fishing boat skipper.

THE OTHER MEN who sighted the object were Louis Fontenot, 49, port captain at the Anchor Boat Works, John Boyd of La Porte, a ship-fitter at the boat yard, and Al Cooling of La Porte, the first to spot the object.

Pentecost said he notified Ellington Air Force base of the unidentified object. After he telephoned in the report, Pentecost said, a jet fighter came into view and appeared to be following the object's path.

The UFO was about 20 miles south of the men when it was first spotted, he said. It moved in a northerly direction until it disappeared from sight, Pentecost said.

Page 10A - The Sentinel - Gulf Breeze, FL. - August 1, 1991

Dear Editor

While reading Ed and Frances Walters book called *The Gulf Breeze Sightings* (Morrow, 1990), I noticed that Walters said he took his first photographs of the colorful and hovering UFO over Gulf Breeze on November 11, 1987. Three years later to the day — on November 11, 1990 — Gulf Breeze witness Jeff Lawrence said he saw a UFO similar to Walters' 1987 photos. On May 10, 1991, a visiting Japanese film crew filmed a brilliant red-and-white object over Gulf Breeze. I noticed that November 11, 1987, to May 10, 1991, equals 185 days. The average of 180 and 185 is 182.5 days or the same as the Earth's solar year days divided by two. Future intervals of 3.5 years after May 10, 1991, represent November 11, 1994, May 10, 1998, November 11, 2001, May 10, 2005, and November 11, 2008.

The precisetime patterns suggest that the Gulf Breeze UFOs may be trying to make clear to us a time interval of 3.5 and 7.0 years. Perhaps the November 11, 1987, UFO reappeared on May 10, 1991. The intelligent patterns might represent some future dramatic appearances or landings on these dates and an attempt to reveal to us a higher technology or advanced knowledge valuable to the human race and our understanding of this Earth and the Universe.

Yours very truly,
Kenneth Lloyd Larson
Los Angeles, California

Student Claims He Saw UFOs Over Decatur

It may be that those unidentified flying objects claimed to be seen over southern Michigan the past few days have paid a visit to Decatur.

Dave Peckham, 14-year-old St. Teresa High School student, says he spotted three strange objects hovering over his house at 430 W. Main St. about 10 p.m. Tuesday night.

He described the objects as circular and finished with some type of grey-looking

metal, except for antennas which were "dull-looking yellow." Dave says the objects also had a "hazy ring" underneath them.

"I got scared and called mom, but they took off, and it looked like real fast."

Dave is the son of Mr. and Mrs. O. H. Peckham.
